

# Venkatesh Murali Krishnan

Coimbatore, India | [Venkatesh Murali](#) | +91 96779 66101 | [venkateshmuralikrish@gmail.com](mailto:venkateshmuralikrish@gmail.com)

## CAREER GOAL

---

- Full Stack Developer with a focus on new and emerging technologies.

## EDUCATION

---

### Karpagam College of Engineering

B.Tech Information Technology(GPA: 7.4)

Coimbatore, India

Graduation Date: March 2018

- Organizations/Awards: Finalist Smart India Hackathon - 2k17

## WORK EXPERIENCE

---

### Cognizant

Coimbatore

Associate

January 2022 - Present

- Working as a part of the UI Team for US Retailer Macy's migrating their codebase to the latest tech stack using React, TypeScript, and GraphQL.
- Architecting developing process, involving in Project Planning, Sprint Planning, and Backlog grooming process to ensure continuous and quality development.
- Actively involved in upskilling sessions organized by Cognizant in the latest technologies like Docker.
- Contributed to Talent recruitment as an Interview Panel member for screening candidates applying for frontend developer roles

### Hash Dhronas Digital LLP

Chennai

Co-Founder

December 2019 - January 2022

- **Ideation to Execution**
  - o Bootstrapped Hash Dhronas from scratch, and successfully delivered 16 projects to clients across 7 countries, thus contributing to **total revenue of \$40,000**.
  - o Ideated and executed marketing strategy for client acquisition
  - o Involved in identifying talents and onboarding new resources based on project requirements
  - o Identifying and mentoring skill gap of peer teammates to upskill based on the latest trends
- **Project Management**
  - o Work closely with stakeholders, identify their problem statement and write a detailed Scope document to ensure all requirements are met and make the development process easier.
  - o Involve in budgeting, Sprint Planning, Backlog Grooming, and estimating time and deliverables.
  - o Create tickets for each module and task using tools like **Jira, and Trello** and assign them to respective teams to keep track of work.
  - o Always keeps the Stakeholders in the loop and provide daily updates and timesheet weekly thereby ensuring Client Satisfaction.
- **Design**
  - o Designing Social media banners, posters for the organization, internal announcements, and clients for their Social Media Marketing requirements.
  - o Developed low-fidelity wireframes based on the Scope of work and got approval from stakeholders
  - o Designed screens, and made minor changes in the Screens to ensure continuous and quick frontend development.

- **Development**

- **Actively involved in developing frontend modules of the following applications:**

- Built an E-commerce application from scratch, collaborate with stakeholders for Project Planning, implemented the frontend modules using React, Hooks, Redux, AntD, and React JSS, and worked alongside designers and the development teams resulting in the completion of the project before the original estimate contributing **12% profit**.
    - Developed a Health Care Application, Doczo using React Hooks, Framer Motion, AntD library creating reusable components and customizing AntD Components to implement pixel-perfect front end user interface and best user experience.
    - Engineered an efficient plan for Transport related applications to automate their manual operations. Ideated a suitable development plan to speed up development and implement the frontend modules using React, Material UI, styled components, and collaborating along with designers, backend team, and DevOps to ensure the progress of the project at various stages, thereby increasing the **client's revenue by 32%**.

- Architect API endpoints necessary for screens and provide suggestions to ensure quicker integration with Frontend.
  - Worked collaboratively with **Design, Frontend, and Backend Teams** to ensure the efficiency and performance of the application as well as verify the development with the scope of work.

- **Deployment**

- Deploy the frontend and backend modules using **Netlify, and Vercel** at end of each sprint for stakeholder approval and feedback.

## **Wipro**

*Project Engineer*

**Bangalore**

*May 2018 - November 2019*

- Maintained front-end modules of a reputed banking firm and implemented new user modules based on requirements using Java and JSP, awarded “Best Team Player” Award.
- Trained in the Insurance domain to get familiarized with the insurance ecosystem for an upcoming project,
- Participated in a Health awareness event organized by Wipro “Wipro SOW Run” and encouraged colleagues to join the event
- Studied best engineering practices and took part in code review, and brainstorming sessions with the team.

## **LEADERSHIP EXPERIENCE**

**Karpagam University Yoga Club**

*President*

**Coimbatore**

*July 2016 - March 2018*

- Encouraged peers to actively take part in weekly events, organized and planned agenda for weekly programs, invited guest speakers, and conducted meetups for the Yoga community.

## **PROJECT EXPERIENCE**

**Tippler Post**

*Travel Blog*

- Designed the UI using Figma, developed frontend using Next JS, Tailwind CSS, and used Prismic(CMS) for backend and deployed using Vercel to enhance my skills NextJS, Tailwind.

## **SKILLS & INTERESTS**

**Skills:** HTML | CSS | Javascript | React | Redux | Next JS | TailWind CSS | Node JS | Prismic | UI Design in Figma | Framer Motion | Python | Java | React Testing Library.

**Interests:** Sales and Marketing, Travelling, Mushroom Farming, Biking.
