

VENKATESH MURALI

Senior Frontend Engineer

Profile

Results-driven Senior Frontend Engineer leveraging cutting-edge technologies and agile methodologies to deliver exceptional user experiences. Expertise in React, Next.js, and CSS frameworks. Proven track record of driving innovation, leading teams, and delivering high-impact solutions.

Experience

Frontend Engineer | heycar

Oct 2022 - Present

- Develop highly performant and scalable frontend modules for heycar's French market using React, Next.js, and styled components within an Agile environment.
- Conduct comprehensive research and development, evaluating previous applications to propose optimal solutions and establish best practices.
- Drive the implementation of the new frontend application using cutting-edge technologies including Next.js 13.3, React Testing Library, Jest, and Playwright, ensuring seamless integration with Lighthouse for superior performance.
- Collaborate effectively through pair programming and knowledge-sharing sessions, contributing to the continuous improvement of the development team.
- Maintain a strong focus on code quality, testing, and adherence to best practices, resulting in improved efficiency and maintainability.

Software Engineer | Cognizant

Jan 2022 - Jul 2023

- Played a key role in the UI Team for US Retailer Macy's, successfully migrating their codebase to React, TypeScript, and GraphQL.
- Architected and developed frontend solutions, actively participating in project planning and backlog grooming within an Agile framework.
- Contributed to talent recruitment as an Interview Panel member, evaluating and selecting top-notch candidates to join the team.

Lead Software Engineer, Co-Founder | HashDhronas LLP

Dec 2019 - Jan 2022

- Successfully bootstrapped Hash Dhronas from scratch, delivering 16 projects to clients across 7 countries,
- Championed Agile methodologies to optimize project delivery, foster team collaboration, and drive successful outcomes.
- Oversaw end-to-end project lifecycles, including comprehensive scope definition, budgeting, sprint planning, and backlog grooming.
- Implemented cutting-edge frontend technologies like React, NextJS, Figma, Tailwind etc ensuring intuitive user interfaces and exceptional user experiences.

Project Engineer | Wipro

May 2018 - Nov 2019

- Maintained front-end modules for a reputed banking firm, implemented new user modules using Java and JSP.
- Trained in the insurance domain to familiarize with the industry ecosystem.

Education

Karpagam College of Engineering
